PROFILE

I am a BCA graduate with experience in web development and Android app development. I have completed my Android app development course, specializing in Kotlin, and have built real-world mobile applications with features like secure payments**,** API integration**,** and Google authentication. I am passionate about solving problems through technology and eager to apply my skills to innovative projects while continuously learning and improving as a developer.

EDUCATION

Jun, 2021 - March, 2024	**Bachelor of Computer Applications (BCA)** Saurashtra University: Rajkot **- Key Projects:** - Hospital Appointment Booking System: PHP, MySQL. - Service Provider Website: ASP.NET, C#.

COURSES

Apr, 2024 – Feb,2025	**Android App Development** TOPS Technologies Rajkot I have successfully completed an Android app development course in Kotlin . Throughout my learning journey, I consistently practiced coding, worked on real-world tasks, and developed multiple mini projects to gain hands-on experience. This course provided me with a strong foundation in Android development, covering key concepts such as Object-Oriented Programming , database integration, API handling and Jetpack Compose.

PROJECTS

1. **Mobile Store Stock Management App (Mini Project)**
   Android Kotlin, API, Volly

   - Built a mobile stock management app using Android Kotlin, integrated with a server-hosted API for real-time data updates.

   - Developed separate admin and salesman interfaces for managing stock and viewing details, enhancing inventory control and sales efficiency.

2. **E-Commerce App for Mobile Phones**
   Android Kotlin, Retrofit, API, Firebase

   - Created an eCommerce app using Kotlin with a responsive UI, secure payments ,social media integration and real-time data handling .

-Integrated **Razor pay** for secure online payments and **Google Login** using **Firebase** for easy authentication.

-Used **Retrofit** for smooth API communication and fast data loading, optimizing performance with **Recycler View** and efficient database management.

SKILLS

- **Programming Languages:** Kotlin, PHP, C#, C, C++
- **Android Development:** Building mobile apps using Kotlin, Android SDK, and Android Studio
- **Database Management:** Working knowledge of SQLite, Room Database, Realm Database and Firebase
- **API Integration:** Understanding of integrating RESTful APIs, JSON handling, Retrofit and Volley.
- **Version Control:** Proficient in Git and GitHub for code management and collaboration
- **Problem-Solving:** Strong analytical skills with an ability to troubleshoot and debug code
- **Tools & Frameworks:** Android Studio, Visual Studio, Firebase, Postman
- **Soft Skills:** Effective communication, teamwork, adaptability, and eagerness to learn

HOBBIES

- Staying updated with Android development trends through tutorials and projects.

- Enjoy strategy games, music, and movies to enhance problem-solving and creativity.

LANGUAGES

English: Very Good Command   **Hindi**: Fluent   **Gujarati:** Native
